When you see one of these, think about the following,

STONES

Is there something you are holding on to inside, you don't want forward with you anymore? Maybe there is a hurt or sadness, fear or worry?

Hold the stone in your hand. Think about the thing you want to let go of.

When you are ready, release the stone to the ground and let go of the thing you are leaving behind in head or your heart. Don't pick it back up!

LEAF

As the seasons change the leaves change colour on the trees around us! It's a visual reminder that life is always moving forwards and God is always at work around us.

Pick up a leaf and thank God for the new exciting times ahead to come.
